Intensive Coaching Support For Individuals And Small Groups

“I learned more in two hours with Summit than I’ve learned on many two-day training programmes.”

Manager, Orange PCS

Why 1-2-1 Coaching?

The benefits of undertaking a Summit 1-2-1 Breakthrough Coaching day are many. They include:

- ✓ 7 hours personal development support from an acknowledged expert in their field
- ✓ Bespoke learning designed to match your unique personal and organisational needs
- ✓ Telephone coaching support for 10 days following your coaching
- ✓ Your financial investment for bespoke learning and expert support is often lower than many 'off the shelf' public courses
- ✓ Quality of coaching that's second-to-none - (see client testimonials)

What's my financial investment?

Your investment for a one-day Breakthrough Coaching day for a member of your team is just **£529** + vat.

Explore Google and you'll find an abundance of off-the-shelf, one-day public courses advertised at or more than this price. But you won't receive the personal attention and quality of coaching that you will with Summit.

Where is the venue?

Your coaching session can take place on your own premises in a private office where we won't be interrupted and you can focus on developing your new skills and competence.

Who is my Breakthrough Coach?

Your expert coach is Summit Director of Learning & Development, Dirk Bansch (pictured).

Not only is Dirk an acknowledged expert in the corporate coaching arena with over a decade of experience, he is a Certified Trainer of Neuro-Linguistic Programming (NLP) and has trained over 6,000 people across the globe.

The client testimonials on the following page all relate to Breakthrough Coaching sessions that Dirk has facilitated.

Client Testimonials

“The training that I received from Summit Consulting and Training has been a tremendous success - both for me and the whole PR & Press department.

Not only has the training session given me more confidence in the day-to-day management of my team, but I have learnt new methods of working. The new skills have enabled me to work with my team to help them reach their individual potential, whilst achieving great results for the whole organisation.

In addition, the follow-up service has proved to be invaluable. The clear and logical methods undertaken by Summit are proving to be an essential support service for our organisation.”

Head of PR & Press, Elizabeth Finn Care

“I have to say that I found the training extremely valuable and was exactly what I needed.

It entailed a full day of 1:1 discussion in a safe environment about real work life situations. It revealed to me some clear traits about my own character (that I didn't realise were there, but now I can see them!), demonstrated the impact that I have on people around me, and gave me tools that I can use to help me in difficult situations ahead.

Until yesterday, I almost felt like I was facing a brick wall and didn't really know how to address certain situations, but now I have something that makes sense to me and that I feel confident that I can use.

I would thoroughly recommend this to anyone and the 1:1 was invaluable - much better than being in a room full of other delegates!”

Senior Manager, Howdens Joinery

“Further to our meeting, I just wanted to thank you again for the training. It was a really excellent day, and a learning experience I will never forget. I was extremely impressed with every aspect of the service I received from Summit Consulting and Training, from the very first contact by the CEO of the company to discuss my training needs.”

Head of Operations, Science City York
